

Metro Warriors STEM Organization

Mr. Minter is a dynamic manager with over twenty-five years of formal training and experience in the field of Information System Management, which includes Information Assurance, Network Security, Network Architecture Design, and Configuration Management. Strengths include Certification & Accreditation Activities, Information Assurance, Enterprise Security Engineering, Network Security, and Human Resources Management. Extensive experience using OMB, FISMA, NIST, and DoD Information Security directives to create System Security documentation using the best practices of Information Security. Mr. Minter understands the challenges of accrediting new systems as he successful supported multiple systems within the Department of Justice and Aerospace Industry.
