

Metro Warriors STEM Organization

Courtney Hall has been involved with MWSO since 2016, after enrolling his children in the robotics program. He became impressed with the Organization, its vision, and the passion of its founders and decided to help as a parent volunteer (VEX IQ) and an assistant coach (RC STEM TEN80). Courtney has volunteered with VEX IQ for two years and helped the Elementary Team compete at the 2018 VEX Robotics World Championship in Kentucky. Courtney enjoys coaching and he looks forward to working with your child.
