

# Metro Warriors STEM Organization

## Yvette Selby

is an Environmental and Chemical Engineer who attended Northwestern University (BS) and Howard University (MS). She's a branch chief in the Environmental Protection Agency's Office of Chemical Safety and Pollution Prevention. Through the years, Yvette has served on the National NSBE Professionals Board, Region II Professionals Board, and National committees in leadership positions that contribute and improve NSBE programming for Pre-College, Collegiate, and Professional Members. She primarily develops and implements programs that engage pre-college students, encouraging them to learn about opportunities in engineering and science. Yvette has been a coach for the MWSO Jr. FIRST Lego League/STEMZONE for 3 years.
