

Metro Warriors STEM Organization

Wendell V. Bates, Born, raised, and educated in Washington, D.C., Wendell V. Bates is a graduate of McKinley Technical High School and Howard University, B.A., J.D., He currently lives and practices law in Prince George's County, Md. From law to robotics? Glad you asked: when his son became involved in First LEGO[®] League[®] (FLL) several years ago, Wendell initially became a parent volunteer, then an assistant coach, and finally, a head coach. Over the years, those teams have won awards and twice advanced to the FLL Maryland State Championships. FLL is a great vehicle for children to learn research and problem-solving skills, team work, and have fun doing it. Let's get started!
